

Scenario :

The task management process is triggered by the user when he opens the app.

The user views the task list.

The user can add a task by pressing on the create button and specifying its title, content, and whether it's urgent or not.

If the task is urgent, it is added at the top of the task list in red. Otherwise, it is added at the bottom of the task list in purple.

The user can update the task fields by pressing on the task.

The user can delete a task by pressing on the trash can icon.

When a task is completed, the user can click on the checkbox to have it colored green, meaning it is completed.
